9. Marking and penalties will be as printed in the appropriate section of the MSA General Regulations; The method of recording scores will be as follows: wherever you stop on the hill, the Marshal nearest to that point will mark the card with the score and initial it. Front wheel hub marking will be used and competitors will be credited with the appropriate marks for the part of the section reached by the centre of the front wheels. A car will be deemed to have stopped when the un-driven wheels cease to revolve, or when it fails to leave a start or restart, or when it touches a marker of any kind. The point of failure will be considered to be that at which any marker is first struck. For clarification purposes, Car 3 has passed the twenty marker with the centre of the nearside hub but has hit the nineteen marker, so scores 18.

To avoid any misunderstanding MSA Rule T6.4 is quoted in full;

- 6.4.1.1 A competitor will also be considered to have failed to negotiate an observed section non-stop if: Any part of their vehicle or its occupants touch a marker
- 6.4.1.2 All four wheels are positioned outside of the boundary of the course at the same time. The boundary is represented by a straight line drawn from course marker to course marker along the direction of the course.
- 6.4.1.3 The point of failure will be considered to be that at which any marker is first struck, or the point at which the boundary of the course is first crossed by all wheels of the competing vehicle.
- 6.4.1.4 Should this point of failure coincide with the division between two sub-sections, the marks lost will be those appropriate to failure in whichever of the two sub-sections provides the greater penalty.

If, due to unforeseen circumstances, it becomes necessary to close a hill during the course of the trial, the following will apply: - an average will be taken of the scores gained by competitors in each of the classes. This average score will then be given to all competitors in that class who are unable to attempt the hill due to its closure, providing that at least 60% of the total starters have attempted the hill beforehand. ### **SAFETY, HEALTH, ENVIRONMENT AND FIRE (SHEF) AT THE VINTAGE SPORTS-CAR CLUB (VSCC) AND DURING VSCC EVENTS**

It is the Policy of the Vintage Sports-Car Club (the Club) to operate in a positive culture of safety, health, and environmental protection throughout its entire business and sporting activities. To this end, the Club will coordinate all relevant activities under the collective heading of Safety, Health, Environment and Fire, or 'SHEF'.

The Club fully recognises the potential risks in its activities, the application of relevant legislation, and that it has the ultimate legal responsibility in these matters both in the workplace and at the Club's events. Accordingly, the President accepts overall responsibility for policy formulation and effective implementation of that policy. In turn, all employees, competitors, officials, and volunteer helpers are responsible for all SHEF duties allocated to them, either directly, or as a result of the Club's SHEF policy. Members of the public at Club events, whether paying or not, will be advised of their responsibilities as a result of their decision to spectate.

In pursuance of this policy, the Club will progressively identify all hazards and take measures to reduce risk. Motor Sport is spectacular and exciting, providing enjoyment to competitors and spectators alike, but there are many aspects of the sport which carry inherent risk. Much of this risk cannot be eliminated totally, and the emphasis must therefore be placed on controlling the risk through effective risk management systems. The purpose of such Risk Management will be elimination of the risk where possible, or to reduce the risk to levels which are demonstrably As Low As Reasonably Practicable (ALARP) where it cannot.

Throughout all of its activities, the Club will appoint an appropriate number of competent persons to implement the Club's SHEF procedures. In addition, a number of SHEF committees are established to ensure proper consideration of all risk factors, Committee members and other competent persons may be employees or volunteers. Competence will be guaranteed by formal training, the maintenance of records and, for motor sports events, full compliance with the rules and regulations of The Motor Sports Association (MSA), the governing body of the sport in the UK, and the venue owners.

G Smith, President April 2017
