## Exceptions and Variations to points

1. In cases where a member enters more than one car for a meeting, each car may score points for all the Trophies for which it is eligible, save that where more than one car is eligible for the same Trophy, only the one scoring the most points will count. At speed events (hill climbs and sprints), only one class per car (in which the highest points are scored) will count. At two-day race meetings drivers may score points in one race or class on each day except for aggregated races where both races count towards a single result).
2. No points may be scored in Section events (except where the rules of a particular Trophy specify otherwise), social events such as treasure hunts, concourse, or in events for other clubs.
3. In addition to the special marshals' trophies, points for marshalling count towards the Lycett, Lycett Memorial and Proxime Accessit, The Northern Lycett and the Yorkshire, and the John Rowley trophies as well as the Light Car Trophy for Light Car and Edwardian Section events.
4. Rally Navigators may score the same number of points as their drivers towards all Lycett and John Rowley Awards.
5. Some trophies operate a different scoring system and these are identified in the trophy descriptions below, where applicable.
6. An extra 30 points will be given to all finishers in our more gruelling events. These events will be identified at the beginning of the year when the calendar and Annual Aggregate Points rules are published. Events will only be considered for this designation if they make exceptional demands on driver and car. It will not be used to encourage entries. The only current examples are the full rally classes in the Measham Rally.
