H29.1.1 – H29.1.3 Entries will be on a first come first served basis for the race meeting, not individual races, with a specific percentage (advised in the Supplementary Regulations) of the entry selected at the discretion of the organisers in accordance with the VSCC Selection Guidelines.

Competitors should be aware that the entry form includes a declaration regarding the use and return of these items. Failure to return these items at each race meeting may result in the competitor paying a replacement fee. Competitors wishing to use their own transponder should declare its number on both the entry form and during signing-on for each meeting. Failing to record a suitable practice time through non-fitment, or fitting the wrong transponder will result in the competitor starting from the back of the grid. Should a car be double driven, it is the competitor's responsibility to ensure the transponder allocated to the competitor on-track is fitted to the car. At our race meetings at Silverstone and Oulton Park we are asking for a small charge for those competitors that wish to base themselves in one of the circuit's pit garages. This has been common practice for many years by a number of other clubs and organisers and for 2021 the VSCC will be trialling something similar.

The funds raised by garage bookings will be allocated in full to the Club's Marshals and Volunteers that support us throughout the year at around 40 different events all over the country. The funds may be used to purchase new equipment, fund training sessions, provide a cooked breakfast or packed lunch at an event; anything that will directly benefit long-standing and new Marshals, Volunteers and Officials.

At Oulton Park the use of a pit garage will cost £30 per car, this should be indicated on your entry form and £30 added to your entry fees. If you wish to share your garage with a fellow competitor, please indicate this but note your garage companion will also need to make a garage booking. The use of pit garages will be subject to any social distancing measures in place at the time of the event and/or instructions from the organisers or circuit owners.

We look forward to your support of this new initiative.

Richard Winchester
